EDUCATION

Vellore Institute of Technology University, Bhopal

B.Tech, Department of Computer Science and Engineering

September 2022 – Exp. 2026

CGPA: 8.34

TECHNICAL SKILLS

Programming Languages: C++, JavaScript

Web Technologies: React, Next.js, Tailwind CSS, Node.js, Express.js

Database: MySQL, MongoDB, PostgreSQL

EXPERIENCE

AI Product Research & Development Intern

July 13, 2026 – September 13, 2026

Prodigal AI

Remote

- Working on improving SEO and GEO (Generative Engine Optimization) strategies to strengthen the company's search visibility and discoverability across AI-driven search platforms.
- Contributing to backlink building initiatives to improve domain authority and organic search rankings.
- Refining profile bios and brand voice guidelines to ensure consistent, optimized messaging across company platforms.
- Collaborating with the development team, working across the frontend and backend to implement improvements to the website and its features.
- Testing changes for consistency and reliability before deployment to ensure a smooth user experience.

PROJECTS

BhashaLearn | *Indian Language Learning App* | [View Project](#) · [GitHub](#)

- *Tech Stack:* React.js, React Native, Expo, Supabase, PostgreSQL, Gemini 2.5 Flash API, Vercel
- Built a cross-platform language learning app (web + mobile) for 12 Indian languages with authentication, protected routes, and persistent user profiles.
- Integrated Gemini 2.5 Flash API for AI tutoring, dynamic lesson/quiz generation, and real-time answer validation with fallback handling for API rate limits.
- Migrated the web app to React Native (Expo) with native speech recognition, TTS, and EAS deployment, optimizing audio support and device compatibility for Indian languages.

MoneyLens | *AI Expense Tracker* | [View Project](#) · [GitHub](#)

- *Tech Stack:* React, Vite, Node.js, Express, Turso (SQLite), Groq API, JWT, Recharts
- Developed a full-stack AI-powered expense tracker with natural language input parsing using Groq's LLaMA 3.3 70B model, enabling conversational expense logging.
- Implemented JWT-based authentication with bcrypt hashing and designed RESTful Express APIs integrated with Groq for personalized financial insights.
- Built a responsive dark-themed dashboard with Recharts visualizations, deployed on Vercel and Render.

QuickCart | *Ecommerce Website* | [View Project](#) · [GitHub](#)

- *Tech Stack:* Next.js, React, Tailwind CSS, Clerk, Inngest, MongoDB, Node.js
- Developed a full-stack ecommerce site with role-based access control and Inngest-driven asynchronous order synchronization with MongoDB.
- Designed dynamic API routes in Next.js with secure Stripe payment flows and scalable MongoDB data models for cart and address management.

EXTRA-CURRICULAR

Social Media Team Core Member

June 2024 – June 2025

D2C Igniters Club

- Strategized and executed social media campaigns for flagship events Vibes and Foragers 3.0, increasing event visibility and driving 150+ student participation.
- Created content for Instagram and LinkedIn, improving reach and engagement while collaborating with media teams for promotions.

CREATIVE & PERSONAL INTERESTS

- Edit short-form videos and digital content for social media.
- Actively play chess, which strengthens strategic thinking and problem-solving skills.
