EDUCATION

Vellore Institute of Technology University, Bhopal

B.Tech, Department of Computer Science and Engineering

September 2022 – Exp. 2026

CGPA: 8.34

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript

Core CS: Data Structures & Algorithms, Git, REST APIs, SQL

Machine Learning / AI: CNN, OpenCV, NLP, LLM API Integration (Gemini, Groq)

Web & Database: React, Next.js, Node.js, Express.js, MySQL, MongoDB, PostgreSQL

EXPERIENCE

AI Product Research & Development Intern

July 13, 2026 – September 13, 2026

Prodigal AI

Remote

- Collaborated with the development team across frontend and backend to implement and test product improvements before deployment, ensuring reliability and a smooth user experience.
- Worked on improving SEO and GEO (Generative Engine Optimization) strategies to strengthen search visibility across AI-driven platforms.
- Refined profile bios and brand voice guidelines to ensure consistent, optimized messaging across company platforms.

PROJECTS

Face Sentiment Analysis | *Facial Emotion Recognition (ML)* | GitHub

- *Tech Stack:* Python, OpenCV, CNN, FER-2013 Dataset
- Trained a CNN-based facial emotion recognition model on the FER-2013 dataset in Python, achieving 85%+ classification accuracy across emotion categories.
- Built a real-time face detection and image preprocessing pipeline using OpenCV for live inference.

BhashaLearn | *Indian Language Learning App* | View Project · GitHub

- *Tech Stack:* React.js, React Native, Expo, Supabase, PostgreSQL, Gemini 2.5 Flash API, Vercel
- Integrated the Gemini 2.5 Flash LLM API for AI tutoring, dynamic lesson/quiz generation, and real-time answer validation, with fallback handling for API rate limits.
- Built a cross-platform app (web + mobile) for 12 Indian languages with authentication, protected routes, and persistent user profiles.

MoneyLens | *AI Expense Tracker* | View Project · GitHub

- *Tech Stack:* React, Vite, Node.js, Express, Turso (SQLite), Groq LLaMA 3.3 70B API, JWT
- Developed a full-stack AI-powered expense tracker with natural language input parsing via the Groq LLaMA 3.3 70B API, enabling conversational expense logging and personalized insights.
- Implemented JWT-based authentication with bcrypt hashing and designed RESTful Express APIs, deployed on Vercel and Render.

QuickCart | *Ecommerce Website* | View Project · GitHub

- *Tech Stack:* Next.js, React, Tailwind CSS, Clerk, Inngest, MongoDB, Node.js
- Developed a full-stack ecommerce site with role-based access control, dynamic API routes, secure Stripe payment flows, and Inngest-driven asynchronous order synchronization with MongoDB.

EXTRA-CURRICULAR

Social Media Team Core Member

June 2024 – June 2025

D2C Igniters Club

- Strategized and executed social media campaigns for flagship events Vibes and Foragers 3.0, increasing event visibility and driving 150+ student participation.
- Created content for Instagram and LinkedIn, improving reach and engagement while collaborating with media teams for promotions.

CREATIVE & PERSONAL INTERESTS

- Edit short-form videos and digital content for social media.
- Actively play chess, which strengthens strategic thinking and problem-solving skills.
